Hungarian Postal Service 2010

Our postal service nowadays offer a lot of interesting topics for philatelists, yet some collectors specializing in postal history have accumulated an even deeper knowledge of the past eras, than their present one. Most of them do not even deal with the present services, in spite of the fact that this is a lost opportunity that could not easily be recovered later.

This collection would like to draw the collector's attention to the highlights of the Hungarian Post's 2010th annual activity. Regarding mostly the ***stamp issues of the current year*** - it includes ***all combination the inland tariffs*** of the standard, priority, registered and return-receipt mails. In the closing section were highlighted some less known examples - even by Hungarian philatelists – of the reduced tariffs and some envelopes with the not easy to get foreign tariffs. This is to show, that the rarity of the future might just come from these two areas.

The collection is strictly limited to real postal shipments. However, they are mainly derived from correspondence in case of higher tariffs, where the senders usually strived to use the current year's stamp issues. Without this, such completeness probably could not be reached, which also highlights the controversy between ordinary mail and philatelic runs. I leave this matter in the experimental class jury in understanding and goodwill.

That is a known philatelic dilemma and it could be handle a little better. Hopefully this collection proves that some philatelic runs are not at all irrelevant from the view point of modern philately, when they replace virtually unobtainable objects. The chance of acquisition for many of them decreases in time − this particularly applies to the use of stamps as novelty. My intention is to raise awareness and increase interest in the collection methods described and shows an alternative way, as opposed to the philatelic irrelevant, fruitless purchase of the stamp novelties.

1. Postcard & standard inland mail

The dimension of standard mail

The tariff, suitable for machine processing of mail, to 30 grams (so called "standard mail", postcards and picture cards) was this year 80 Ft (forint) for all. To process standard mail, there are two kinds of dimensions for envelopes in use. The size differences must be within ±10 mm. Furthermore, they should have been filled smoothly and flexibly, to allow machine processing. Such kind of mails with a single definitive stamp faced 80 Ft are certainly the most common specimen of franking in 2010.

1. Postcard & standard inland mail Specialties of franking the standard mail

Above left: mail from Hodmezovasarhely 2010-03-22. The stamp used on it was novelty in those days referring to the *"novelty periods"* on the second page of the exhibit.

Right downside: ordinary private mail, with a light but significant stairs-franking of the stamps.

In spite of it had prohibited since more then one and a half century, it was tolerated by the Post Office on 2010-09-02 in Budapest.

2. Normal inland mail over the lowest tariff

The non-standard mail, with some special characteristics (like size and so on) is described in the business regulations named "other mail". It must be franked by its weight. There are six more degrees over the standard mail. All other shipments (with weight or size over them) are posted as "parcel". They are out of the scope of this exhibit.

Envelope over: the value 80 Ft of definitive stamp (tariff of standard mail) was <u>completed with IPH label</u> to 110 Ft. It is correct because the size of the envelope is larger (184x130 mm) than the European standard envelope.

Underneath is same size of envelope, but the "Belfold" stamp on it has been worth only 80 Ft. So it should have completed to 110 Ft also. The mail is <u>under franked</u> at the expense of the Post and the shortage of payment is 30 Ft.

Mail sent from Budapest on 2010-12-14 with various stamps issued in 2010.

3. Priority inland mail

The postal services undertake the shipment of the materials within one working day, 92% of the time. The priority treatment is indicated by a blue label, and such mail might also be dropped into a mail box.

1st tariff for priority standard mail to 30 g: 105 Ft

Ordinary mail with a stamp from the commemorative block of 150 anniversary of Madach' Tragedy of Man sent from Budapest on the first day 2010-05-03.

Novelty usage of the Red Cross stamp sent from Budapest on 2010-03-22.

3. Priority inland mail

"Ready for posting" envelope

The "ready for posting" might be able to be sent without regarding the weight. Generally it means significant reduction in the cost. But the price 115 Ft of this envelope was a bit, 5 Ft higher as the current tariff (110) for priority standard mail.

Both mails were posted on 2010-08-22-from Budapest. They were returned to the sender. The first because of moving the addressee and the second because of an addressing problem. The return signs are different.

Priority mail: 840+215+135 = 1190 Ft

Attractive commercial mail from Budapest on 2010-12-20 franked with four-block of the definitive “Belfold” stamps and with the four strip and four-block of “Christmas 2010” as well with the “25th Formula 1 Grand Prix of Hungary”.

5. Extra mail services

Mail closing & value declaration

In case of the loss of a mail with value declaration the post refund the value. The labels seen in the left side on an envelope are applied at the post office in the presence of the sender. This is authenticated by the signature of the sender and the postal stamping. The value declaration service is available only with registering and mail closing.

Closing on the backside: 220 Ft

Value declaration: 355 Ft pro 10.000 Ft

Fees: standard mail 80 + registering 220 + return receipt 135 + value declaration 335 + closing 220 = 985 Ft.
Franking: Budapest on 2010-10-18, with the current year issued “Synagogues in Hungary II” stamps, 110 + 5x175.

5. Extra mail services

Cash on delivery & into own hands

Cash on delivery – by mail voucher, for the 1st 10.000 Ft: 690 Ft

Fees: standard priority mail 105 + registering 215 + cash on delivery 270 + voucher 420 = 1010 Ft

Into own hands of addressee': 200 Ft

Fees: 2nd tariff of priority mail 150 + registering 215 + return receipt 135 + into own hands 200 = 700 Ft.

Franking: Budapest 2010-10-18, current year issued “Synagogues in Hungary II” pair of stamps, 4x175.

5. Extra mail services

Electronic delivery notification

Notification fee: 55 Ft

The sender receives a message about his shipment delivery through the form given e-mail address or SMS. It is available only for registered mail. The extra service is marked by a bright red label on the envelope.

Over:

Fees: standard mail 80 + registering 215 + e-notification 55 = 350 Ft

Franking: Budapest on 2010-10-18, current year issued "Synagogues in Hungary II" pair of stamps 2x175 = 350 Ft

Left side:

7.1 Mail sent abroad – to Europe

The foreign tariffs are not easy to collect, because of the big distances and the short time gone since the involved year. Maybe they could be never so complete like the inland tariffs previously. Also, here are some fine ***examples*** from the table of tariffs below.

From Budapest to Slovakia on 2010-12-10,
Stamps of the recent year issues "125th anniversary of the Hungarian Gymnastics Federation" and
"25th Formula 1 Grand Prix of Hungary"
140 + 230 = 370 Ft:

3rd tariff to Europe over 20 to 50 gram, 370 Ft

Standard mail from Budapest to Slovakia on 2010-12-15
"125th anniversary of the Hungarian Gymnastics Federation" 280 Ft instead of 210.
(It was franked over with 70 Ft. The 2nd tariff 280 ft isn't necessary on this standard mail. It couldn't be over 20 gram, because for this weight should have to pay more as 280 Ft, also the 3rd tariff 370 Ft can be seen on the left.)

Magyar bélyegek 2010

83. BÉLYEGNAP

A Magyar Posta hagyományai szerint két címletű bélyegsorozatot és feláras bélyegblokkot bocsát forgalomba a bélyeggyűjtők ünnepén. A 83. Bélyegnap eseményeinek – beleértve az Alpok-Adria Nemzetközi bélyegkiállítást is – 2010. március 26-28. között Sopron városa ad otthont. A bélyegnapi blokk felárából befolyó összeget – értékesített blokkonként 200 Ft-ot – a Magyar Posta a hazai szervezett bélyeggyűjtés támogatására utalja át a Magyar Bélyeggyűjtők Országos Szövetsége számára.

Sopron Magyarország nyugati határa mellett, az Alpokalján, Bécstől 60, Budapesttől 220 km-re található. A város a Soproni-hegység és a Fertő-tó melletti Balfi-dombság között, az Ikva patak völgyében fekszik. Újkőkori, réz- és bronzkori leletek tanúsága szerint a terület már az őskor óta lakott. A római korban virágzó város állt itt, ami a népvándorlás korában romvárossá vált. Új település itt csak a honfoglalás után jött létre. A IX–XI. sz. környékén a régi városfalat kiegészítették és felépült a vár. Ekkor kapta nevét Suprun nevű ispánjáról. A vár körüli település a XIII. sz.-ban fejlődött várossá. 1277-ben IV. László király szabad királyi várossá tette. 1529-ben a törökök ugyan feldúlták a várost, ám az nem került hódoltság alá. A reformáció magyarországi terjedésének egyik központjává vált, 1557-ben már evangélikus líceum működött a városban. 1676-ban hatalmas tűzvész pusztított Sopronban, amelyben a város nagyobb része leégett. Ezt követően barokk épületeket emeltek, kialakult a mai belváros és újjáépítették a Tűztornyot is. A következő században Gróf Széchenyi István ösztönzésére megépült a Dunántúl első vasútja, amely Sopront Bécsújhellyel és Béccsel kötötte össze. Az 1848-49-es szabadságharc után a város a Dunántúl egészére kiterjedő igazgatási hatáskörrel rendelkezett. A dualizmus korában hatalmas lendületet kapott és a millennium idején teljesedett ki. 1921-ben, a trianoni békeszerződés után népszavazás döntötte el, hogy Sopron és a környező nyolc község melyik országhoz tartozzon. A város Magyarország mellett döntött, így azóta viseli Sopron „a leghűségesebb város" (Civitas fidelissima) címet. A város és polgársága sokat szenvedett a II. világháborúban, 1944-45-ben több légitámadás érte. 1950-ben elvesztette megyeszékhelyi rangját. Kistérségi szerepkörben először járási székhely, majd ennek megszűnte után az egykori járásától kiterjedésben nem sokkal különböző, mintegy 40 település számára a középfokú ellátás központja lett. 1991-ben megyei jogú városi rangot kapott. A város gazdag műemlékekben, látnivalókban; kulturális és zenei rendezvényei az országhatárokon kívül is ismertek. *(Forrás: http://portal.sopron.hu, Dr. Tóth Imre PhD. írása)*

A 80 Ft-os bélyegen a soproni Orsolyita-templom és a Nagyboldogasszony-templom, a 105 Ft-os címleten pedig a Mária-oszlop és a Hűségkapu látható. Az 500+200 Ft értékű blokk bélyegképét a Szentháromság-szobor, a keretrajzot pedig a város Fő tere díszíti. A bélyegsorhoz tartozó alkalmi boríték rajzán szintén a Fő tér, a blokkhoz tartozó borítékrajzon pedig a – Bélyegnapi rendezvényeknek otthont adó – Magyar Művelődés Házának épülete található. Az alkalmi bélyegző grafikáján a Tűztorony stilizált rajza szerepel.
