At that time Warsaw was under Russian occupation.
Single-weight to Warsaw : 15 kr
Cancelled by: 'PEST 27/10/73' c.d.s
and endorsed in manuscript 'via Preussen' and 'frco'
The Russian arrived cancellation is dated 27/10/73 ? It is due to the fact that at that time Russia is still used (until February 1918) the so called Julianus calendar, while Hungary already used the Gregorian calendar
(2 weeks difference was between the two calendars). Therefore, according to the Gregorian calendar, the letter arrived to Warsaw on 31/10/73.

1.4. Unused stamps

After the destruction of the first copies, the State Printing Office decided to produce the provisional Lithographed stamps with new printing plates. Originally the stamps should have been printed by engraved plates, however the plates were not ready in time. That's way Lithographe plates were used for a few months as a temporary solution. These improved Lithographed copies were released on the 1st of May 1871.

2 kr, type VIII

3 kr, type V

5 kr, type IX

10 kr, type X

15 kr, type II

25 kr, type X

Note:

The 25 kr stamp was produced with a very sensitive ink, that could lose the freshness of its bright color very easily, therefore it is strongly recommended to save these stamps from direct sunlight.

That is way, these copies are exhibited by having colored photo-copies in front of the objectives. The photographed stamps can be found behind the photo-copies.
